Education

Dayananda Sagar College of Engineering

B.E. in Computer Science and Engineering

CGPA: 9.2

Bangalore, India

Nov 2022 - Jul 2026

Technical Skills

- **Languages:** Java, Python, HTML, CSS, JavaScript
- **Frameworks:** ReactJS, NodeJS, ExpressJS, Bootstrap, Tailwind CSS, jQuery
- **Databases:** SQL, PostgreSQL
- **Web Technologies:** REST API, JSON, JWT, OAuth, Authentication & Authorization
- **Tools:** Git, GitHub, Tableau, Sentry
- **Platforms:** Ubuntu (basic), Microsoft Azure (basic)

Experience

Circle Health

Karnataka, Bangalore

Software Developer Intern (ReactJS, NodeJS, Python, Agora SDK, Sentry, Ubuntu)

May 2025 – Sep 2025

- Engineered a secure **Video Consultation platform** using **Agora SDK**, supporting up to **3 participants per session** (doctor, patient, support agent), with secure recording storage in **AWS S3 buckets**, enabling real-time doctor-patient communication while ensuring data privacy and easy video retrieval.
- Spearheaded the development of an **HR Dashboard** using ReactJS and NodeJS to track health goals of **4,000+ employees**, enabling HR managers to identify at-risk employees early and implement targeted interventions, contributing to a 15% reduction in employee sick days.
- Contributed to the **Wacom healthcare application**, enhancing its performance by **30%** for faster load times and improved user experience, while enabling healthcare managers to connect with patients to raise and resolve medical issues efficiently.
- Deployed and configured **self-hosted Sentry monitoring**, reducing average bug detection time by **60%**, and enabling developers to resolve errors within **2 hours** through real-time alerts and detailed stack traces.

Projects

WanderWise - Travel Agency Application (ReactJS, NodeJS, PostgreSQL, JavaScript, CSS)

- Developed a full-stack travel platform tested by **15+ users**, with full booking, browsing, and cancellation features.
- **User Features:**
 - Displayed **20+ travel packages** dynamically fetched from PostgreSQL using **infinite scroll**, enhancing user experience with smooth content loading on scroll.
 - Booked **15+ travel packages** with history, cancellation, and invoice features.
 - Implemented role-based access control (RBAC), safeguarding data of **15+ users** and ensuring **100%** protection against unauthorized access.
- **Admin Features:**
 - Built an admin dashboard empowering administrators to seamlessly add, edit, delete, and monitor **20+** travel listings, enhancing operational efficiency and real-time user engagement.
 - Designed an admin dashboard enabling management of **20+** travel packages and **15+** user bookings, streamlining platform operations for administrators.
- Uses **PostgreSQL** to manage data for **15+** users, **20+** travel packages, and related bookings and customer queries, ensuring reliable and scalable backend performance.

PlanItNow – Event Management Website (ReactJS, NodeJS, ExpressJS, PostgreSQL, JavaScript, CSS)

- Pioneered an event management platform where users created and joined **10+ events**.
- **User Features:**
 - Enabled secure user authentication for **10+** registered users to explore and engage with the platform.
 - Created **20+ events** with detailed title, description, date, and location to enhance user engagement and event organization.
 - Designed and integrated event discovery with search functionality and **3+ filters**, improving user navigation and accessibility.
 - Managed **20+** event bookings with real-time cancellation support, increasing booking flexibility for users.
- **Tech Stack:** Built with React.js (frontend), Node.js + Express.js (backend), and PostgreSQL (database), ensuring **99.9%** uptime and scalability for growing event traffic.
- Utilized Axios for API calls and React Router for seamless navigation across **5+** pages.

Portfolio Website (ReactJS, HTML, CSS, JavaScript)

- Launched personal portfolio viewed by **50+ users**, featuring a **responsive UI**, smooth scrolling, interactive components, and integrated **GitHub** links to showcase **5+ projects**.
- Produced a **100% responsive layout** using **CSS and ReactJS**, ensuring seamless user experience across mobile, tablet, and desktop devices.

Achievements

- **CodeChef:** Achieved a peak rating of **1441** by consistently solving algorithmic challenges and participating in timed contests.
- **LeetCode:** Attained a top rating of **1471** with **340** problems solved, demonstrating proficiency in algorithms and data structures.
- **Smart India Hackathon (SIH):** Cleared the **1st round** among **100+ teams** by developing an innovative solution addressing the problem statement effectively as a team.
